

# SPECIALIST INDUSTRIAL LUBRICANTS

Performance you can trust

## Performance you can trust for industrial applications

As well as general manufacturing applications, we also support these industries:

- ▶ Metalworking
- ▶ Heavy industry
- ▶ Mining & quarry
- ▶ Automotive
- ▶ Aerospace
- ▶ Marine & offshore

Technically advanced lubricants developed by our chemists and engineers to meet customer needs. Our industrial products:

- ▶ Extend component life
- ▶ Increase lubrication intervals
- ▶ Reduce downtime

**ROCOL provides one of the industry's widest portfolios of high performance lubrication and maintenance products.**

Working closely with customers means we understand the day to day challenges in keeping factories running. Our experience and expertise in product development means our advanced technology keeps your equipment maintained to the highest standard to ensure production runs effectively and efficiently.

Our products address multiple applications and we welcome the opportunity to visit customer sites to see how we can give you the performance improvements you need including around:

- ▶ Life cycle costs
- ▶ Reducing and improving MTBF – Mean Time Between Failures
- ▶ TCO – Total Cost Of Ownership of your lubricant maintenance programme

Our dedicated labs test to ISO, ASTM and IP (Institute of Petroleum) standards so you can be assured that you're using the highest quality products.
